

# REPRODUCIBLE REPORTING

**Collaborative community that strives to deliver the best information to support Science advice in Maritimes Region**

HOW TO

## STEP 1: IDENTIFY YOUR SEARCH LOCATION AND BUFFER

### STEP 2: CUSTOMIZE REPORT

Access tool in DM apps, input your search area, provide a description of your project requirements, select your reporting preferences

### STEP 3: RUN TOOL TO GENERATE AUTOMATED, CUSTOMIZED REPORT

Report displays and integrates information related to species presence, distribution, and habitat

### STEP 4: VALIDATE REPORT WITH DFO STAFF

Circulate report with relevant DFO staff to verify and supplement information

### STEP 5: USE REPORT FOR INTERNAL DFO PURPOSES ONLY

Following caveats, disclaimers and uncertainty outlined in each section of the report and staff recommendations

### STEP 6: PROVIDE FEEDBACK

Please identify other data/databases that may be queried in support of this tool and other individuals organization that would like to contribute to reporting outputs
